OCV'd. Top Caliber has done it again in Pacific Snow Drop. She is 89 1/8" TTT and could be the next 90" cow in the breed. Going back to Phenomenon on the bottom, she is long, correct, strong milker and produces COLOR. Take a look at some of the knockout progeny she's produced out of different bulls. An almost 90" cow with a proven production record. You can't go wrong here. She sells 4 months confirmed bred to Cowboy Ruff.

**Total Horn:** 108.1250 on 04/15/2024  
**TTT:** 90.3750 on 11/19/2024
